Be Ready "Before The Moment"

Pixel Eclipse Instructions

This sun shield is designed to be used with a laptop when the glare prevents viewing the screen correctly. Although the case is 15" wide, it can be used with laptops that are wider since it will just push out on the edges of the pop up sun shield. It is not designed to transport the laptop on the inside.

Step 1: Tuck the bottom ends into the fabric slot.

Step 2: Twist the upper part and fold it in half down into the fabric slot.

Step 3: Fold it completely down and push it into the fabric slot. Secure it with the webbing and hook and loop tab.
